

What is claimed is:

1. An electric grill including:
a body member supporting a grill plate for cooking food;
a container adapted to contain smoking element; and
5 a first heating member adapted to heat up the smoking element in said container for
producing smoke for smoking the food cooked by said grill plate.
2. An electric grill according to Claim 1 wherein said container is releasably engageable
with said grill plate.
3. An electric grill according to Claim 2 including a perforated cover for releasably
10 covering said container.
4. An electric grill according to Claim 1 further including a cover releasably engageable
with said grill plate to define a cavity.
5. An electric grill according to Claim 4 further including a fan adapted to draw air from
said cavity between said grill plate and said cover into an interior of said body member.
- 15 6. An electric grill according to Claim 5 wherein said grill plate includes at least one
aperture allowing entry of air from said cavity between said grill plate and said cover
into said interior of said body member.
7. An electric grill according to Claim 5 further including a filter through which said air
drawn from said cavity between said grill plate and said cover passes.
- 20 8. An electric grill according to Claim 7 further including at least one aperture allowing
said air, after passing through said filter, to pass back to the cavity between said grill
plate and said cover.
9. An electric grill according to Claim 1 including a second heating member for heating up
said grill plate.
- 25 10. An electric grill according to Claim 1 wherein said grill plate, said container, an inner
liner member and said body member are releasably engageable with each other.
11. An electric grill according to Claim 1 wherein said first heating member is a light
source.
12. An electric grill according to Claim 11 wherein said light source is a halogen lamp.
